# CONTENTS

OF THE

## 25th YEAR OF THE ENGLISH EDITION.

### No. 1. — JANUARI 1948.

#### I. Fourteenth Session, Lucerne 23-28 June, 1947.

##### General Proceedings in Sections and in Plenary Meetings.

##### 3rd SECTION. — Working :

##### Inaugural Meeting of the 3rd Section . . . . .

1 385. (06 .112

QUESTION III. — As regards passenger traffic, to report on the best policy for the organisation of the train services from the points of view of frequency and composition of trains, to ensure successful transport at the lowest possible cost, whilst giving passengers reasonable facilities. To consider in turn the cases of steam and electric lines, showing the extent of using steam trains and railcars for the former, and electric motor coaches and electrically driven trains for the latter, on lines with heavy, average, and light traffic, during and outside rush hours of the day.

3 656 .222 .5

##### 4th SECTION. — General :

##### Inaugural Meeting of the 4th Section . . . . .

35 385. (06 .112

QUESTION IV. — The interest the Railway Administrations would have in building houses for their staff of all ranks, or in assisting the building of such houses . . . . .

37 385 .517 .7

#### II. OFFICIAL INFORMATION issued by the Permanent Commission of the International Railway Congress Association :

##### Revision of the Rules and Regulations of the Association . . . . .

66 385. (06 .111

#### III. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .

1 016 .385. (02

### No. 2. — FEBRUARY 1948.

#### I. Individual axle drive. Mechanical systems used on electric locomotives and railcars, with an indication of the results obtained in service on railways of all kinds. *Chapter IV. (Continued)* Driving mechanism using springs (or rubber) with transmission by gears, by Adolphe-M. Hug . . . . .

73 621 .337

#### II. The use of radio communication by the French National Railways, by M. WALTER . . . . .

100 656 .254 (44)

#### III. Large-scale manufacture of wagons, L.M.S.R. . . . .

109 625 .242 (42)

#### IV. Prestressed concrete bridge beams being tested in England, by R.-L. M'ILMOYLE . . . . .

117 624 .63 (42)

#### V. Tests of bogie-control device . . . . .

125 621 .135 .4 (494)  
& 625 .215 (494)

No. 2. — FEBRUARY 1948. (Concluded.)

VI. NEW BOOKS AND PUBLICATIONS :

The Universal Directory of Railway Officials and Railway Year Book, 1947-1948 . . . . .

Pages. Numbers  
of the  
decimal classification.

129 385. (02)

Les Tarifs de Chemins de fer en matière de marchandises (*Railway goods rates*), by A. PAILLARD . . . . .

129 656 .235

Soft water for loco boiler feed, by B.-D. FOX . . . . .

130 621 .133 .7

Manner der Schiene, 1847-1947 (*Railway Men, 1847-1947*), by E. MATHYS

131 385. (09 .2 (494)

Les mystères des Chemins de fer (*Mysteries of the Railways*). . . . .

132 385. (02)

Overheidsbemoeienis met het vervoer (*Intervention of public authorities in transport*), by TH.-M.-B. VAN MARLE . . . . .

133 656. (492)

It can now be revealed. — More about the British Railways in Peace and War . . . . .

135 385. (09 (42)

Teknisk Leksikon for Industri og Haandvaerk. Bind II: Veje, Jernbaner, Broer, Vandbygning M. V. (*Technical Encyclopedia for Industry and Trade — Volume II: Roads, Railways, Bridges and Hydraulic Works*) . .

136 385. (03 = 439 .81

L.M.S.R. Modernised Traffic Control Organisation . . . . .

137 656 .222 (42)  
& 656 .254 (42)

Transport Administration in Tropical Dependencies, by Georges O.-V. BULKELEY . . . . .

138 625 .611

VII. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .

9 016 .385. (02

No. 3. — MARCH 1948.

I. Research into a method of calculating the stopping distance in the case of goods trains retarded by continuous compressed air brakes, with progressive charging of the brake cylinders (*to be continued*), by E. HENNIG.

139 625 .251

II. An evaluation of railroad motive power, by P.-W. KIEFER . . . . .

159 625 .28 (73)

III. The restoration of the Frejus tunnel, by M. BASTIEN and M. TARDY . . .

183 625 .13 (44)

IV. Report on the year 1946 of the Netherlands Railways Cy. . . . .

197 385 .113 (492)

V. NEW BOOKS AND PUBLICATIONS :

Gold Coast Railway and Takoradi Harbour, 1939-1945, War Activities, by C.-R. TURNER . . . . .

199 385. (09 (66)  
& 623. (66)

Transportes terrestres. Concorrência e coordenação. (*Overland Transport. Competition and co-ordination*), by J.-F. LAPA . . . . .

200 656. (469)

VI. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .

15 016 .385. (02

— III —

No. 4. — APRIL 1948.

	Pages.	Numbers of the decimal classification.
I. Research into a method of calculating the stopping distance in the case of goods trains retarded by continuous compressed air brakes, with progressive charging of the brake cylinders ( <i>Concluded</i> ), by E. HENNIG . . . . .	201	625 .251
II. The Railways, by F.-Q. den HOLLANDER . . . . .	221	385. (09 (492)
III. Individual axle drive. Mechanical systems used on electric locomotives and railcars, with an indication of the results obtained in service on railways of all kinds. <i>Chapter IV (to be continued)</i> , by Ad.-M. HUG . . . . .	227	621 .337
IV. Load compensating brake goes in service, by C.-D. STEWART . . . . .	245	625 .232 (73) & 625 .25 (73)
V. Railway bridge with 100-ft. aluminium span . . . . .	249	624 .5 (73)
VI. Central Line extensions into Essex . . . . .	257	621 .33 (42) & 625 .1 (42)
VII. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	23	016 .385. (02

No. 5. — MAY 1948.

I. Calculations for beams of infinite length with elastic supports, by A.-D. de PATER . . . . .	265	625 .14 (01)
II. Superelevation and maximum speeds as functions of the radius of curves and of gradients (Part I) ( <i>to be continued</i> ), by D.-E. PROTOPAPADAKIS . . . . .	286	621 .135 (01, 625 .14 (01 & 625 .22
III. The development of electrification of the French Railways, by A. GACHE . . . . .	302	621 .33 (44)
IV. Utilization of new types of material in buildings . . . . .	320	69 (73)
V. OFFICIAL INFORMATION issued by the Permanent Commission of the International Railway Congress Association: Meeting held by the Permanent Commission in Brussels, on February 14th, 1948 . . . . .	328	385. (06 .111
VI. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	31	016 .385. (02

No. 6. — JUNE 1948.

I. A dynamic approach to cost finding for railways, with special reference to the freight traffic of the Swedish State Railways, by Arne SJÖBERG . . . . .	331	385 .114 (435)
II. Light-weight railcars, Central Railway of Peru, by J.-L. KOFFMAN . . . . .	347	621 .431 .72 (85) & 625 .285 (85)
III. Heating of points during snowy weather, by PUGET and NEUMANN . . . . .	365	625 .174
IV. The Mechanical-Diagram-Corrector, for calculating new or corrected versed sines and the degree of displacement required for correcting curves, by L. BIENFAIT . . . . .	376	625 .113

No. 6. — JUNE 1948. (continued.)

V. NEW BOOKS AND PUBLICATIONS :

**L'effort de reconstruction de la S.N.C.F. (The reconstruction of the French National Railways)** . . . . .

**Le Centenaire des Chemins de fer suisses (The Centenary of the Swiss Railways)** . . . . .

**The Railway Handbook, 1947-1948** . . . . .

**Der Dampfbetrieb der Schweizerischen Eisenbahnen (Steam operation on the Swiss Federal Railways)**, by Alfred MOSER . . . . .

**Die Verkehrsmittel im Dienst der Wohn- und Siedlungspolitik (Means of transport to serve the country's domestic and social policy)** . . . . .

**Code de la circulation routière (The Highway Code)** . . . . .

**List of the frontier points open to international traffic in such traffic relations as are subjected to the International conventions concerning the transport of goods by rail (CIM)** . . . . .

**Railway Points and Crossings. Theory and Practice**, by N.-H. COUR-PALAIS . . . . .

VI. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .

No. 7. — JULY 1948.

I. Some considerations on the cause of wheel sliding, by J. L. KOFFMAN . . . . .

II. Individual axle drive. Mechanical systems used on electric locomotives and railcars, with an indication of the results obtained in service on railways of all kinds. (Chapter IV) (to be continued), by Ad.-M. Hug . . . . .

III. New S. N. C. F. three-cylinder compound 4-8-4 locomotive, by Henry MARTIN . . . . .

IV. Design and construction of staybolted fireboxes, by F. P. HUSTON . . . . .

V. Turbine-electric locomotives for the Chesapeake and Ohio Railway . . . . .

VI. Final L. N. E. R. Pacific locomotive. Peppercorn 4-6-2 design . . . . .

VII. A railway scientific research organisation . . . . .

VIII. Prevention and destruction of weeds on the permanent way . . . . .

IX. NEW BOOKS AND PUBLICATIONS :

**The co-ordination of road, rail and air services in Hyderabad State, India**, by E. W. SLAUGHTER . . . . .

**Hundert Jahre Schweizerbahnen. Historisch und technisch dargestellt. - 1841-1941. (The Swiss Railways in the course of a century. A technical and historical review. - 1841-1941)**, by E. MATHYS . . . . .

**Early Scottish colliery wagonways**, by G. DOTT . . . . .

**Teoria del descarrilamiento (Theory of derailment)**, by C. LAFFITE MARTINEZ . . . . .

No. 8. — AUGUST 1948.

	Pages.	Numbers of the decimal classification.
I. The destruction, rehabilitation and future development of the signalling on the Netherlands Railways, by J.-H. VERSTEGEN . . . . .	461	656 .25 (492)
II. BB 0401 locomotive of the French National Railways, by J. TROLLUX . . . . .	499	621 .335 (44)
II. NEW BOOKS AND PUBLICATIONS :		
Il contratto per il Trasporto delle cose sulle Ferrovie dello Stato. Commento alle vigenti « Condizioni ». ( <i>Goods transport contracts on the Italian State Railways. A commentary on the conditions in force</i> ), by G. SANTONI . . . . .	511	347 .762 (45)
La Ricostruzione delle Ferrovie Italiane dello Stato. ( <i>The reconstruction of the Italian State Railways</i> ) . . . . .	512	385. (09 (45)
L'électrification des chemins de fer français. ( <i>The electrification of the French Railways</i> ), by R. DUGAS . . . . .	513	621 .33 (44)
Der Eisenbahnfahrplan für den Personenverkehr ( <i>Railway timetables for the passenger services</i> ), by A. GUTERSOHN. . . . .	514	656 .222 .5
Schweizerische Eisenbahnstatistik. ( <i>Swiss Railway Statistics</i> .) - 1946 . . . . .	515	313 .385 (494)
Electrification of 1 500 km. (932 miles) of lines. Report presented by the National Electrification Commission of the Belgian Railways. - 1947 . . . . .	516	621 .33 (493)
Union of South Africa. — Report of the Commission of inquiry into road motor transportation (1945) . . . . .	518	656 .1 (67)
Struttura economica e tecnica delle tariffe ferroviarie. ( <i>Economic and technical structure of railway rates</i> ), by F. SANTORO . . . . .	520	656 .235
Le siècle des Chemins de fer en France (1821-1938). ( <i>A Century of Railways in France [1821-1938]</i> ), by P. DAUZET . . . . .	521	385. (09 (44)
V. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	53	016 .385. (02
No. 9. — SEPTEMBER 1948.		
I. Criticisms of the new speed signalling colour light signal aspects proposed for use on the Netherlands Railways, with replies thereto, by J.-H. VERSTEGEN . . . . .	523	656 .25 (492)
II. Superelevation and maximum speeds as functions of the radius of curves and of gradients, by D. PROTOPAPADAKIS ( <i>Continued</i> ) . . . . .	529	621 .135 (01, 625 .14 (01 & 625 .22)
II. Transition curves, by L. VUAGNAT . . . . .	552	625 .113
V. Engine exhaust brake for railcars, by J.-L. KOFFMAN . . . . .	561	621 .431 .72 & 625 .251
V. The future railcars of the French National Railways, by TOURNEUR . . . . .	573	621 .431 .72 (44)
VI. OBITUARY: Justin COLLE . . . . .	587	385. (09 .2
II. NEW BOOKS AND PUBLICATIONS :		
La Locomotive. Description raisonnée de ses organes (4 <sup>e</sup> édition) ( <i>The Locomotive. A methodical description of its component parts</i> ) (4th edition), by U. LAMALLE and F. LEGEIN . . . . .	589	621 .13 (02
II. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	61	016 .385. (02

No. 10. — OCTOBER 1948.

	Pages.	Numbers of the decimal classification
I. Individual axle drive. Mechanical systems used on electric locomotives and railcars with an indication of the results obtained on railways of all kinds. ( <i>Chapter IV</i> ) ( <i>to be continued</i> ), by Ad.-M. HUG . . . . .	591	621 .337
II. Expanding cements and the auto-stressing of concrete, by H. LOSSIER . . . . .	631	691
III. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	69	016 .385. (02)

No. 11. — NOVEMBER 1948.

I. Individual axle drive. Mechanical systems used on electric locomotives and railcars with an indication of the results obtained on railways of all kinds. Driving mechanisms based on the Oldham joint ( <i>Chapter V.</i> ). Driving mechanisms with cardan joint hollow shaft and flexible steel disc or quadrilateral laminated or plate coupling. ( <i>Chapter VI</i> ) ( <i>to be continued</i> ), by Ad.-M. HUG . . . . .	661	621 .337
II. Concrete sleepers, by N. W. SWINNERTON . . . . .	698	625 .142 .4 (42)
III. Heat-treated switch points show increased service life, by H. C. KNERR . . . . .	707	625 .151 (73)
IV. The «electro-mechanical» signal box at Paris Nord, by R. MARTIN and CAUCHOIS . . . . .	709	656 .257 (44)
V. NEW BOOKS AND PUBLICATIONS :		
Dictionnaire des termes récents, symboles et abréviations. — Architecture Art de construire, Génie civil. — ( <i>Dictionary of recent expressions, symbols and abbreviations. — Architecture, Building and Civil Engineering</i> ), by F. BODSON . . . . .	718	624. (03, 69 (03 & 7
La locomotive actuelle. ( <i>The present day locomotive</i> ), by E. DEVERNAY . . . . .	719	621 .13 (02)
La machine locomotive. Manuel pratique donnant la description des organes et du fonctionnement de la locomotive à l'usage des mécaniciens et chauffeurs. ( <i>The Locomotive. A practical handbook describing the component parts and working of the locomotive for the use of drivers and firemen.</i> ) (10th edition), by E. SAUVAGE and A. CHAPELON . . . . .	720	621 .13 (02)
Le trafic des moyens de transport et la conjoncture économique en Suisse de 1901 à 1944. ( <i>The traffic of the methods of transport and economic circumstances in Switzerland from 1901 to 1944</i> ), by J. P. BAUMGARTNER . . . . .	721	38. (494)
Association of American Railroads. (A. A. R.). American Railway signaling. — Principles and Practice. — <i>Chapter IX. Rectifiers and battery chargers</i> . . . . .	723	621 .31 (73)
Second Congress on Electro-Thermics and Electro-Chemistry . . . . .	724	621 .3 (06 (492)
VI. MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	77	016 .385. (02)

No. 12. — DECEMBER 1948.

	Pages.	Numbers of the decimal classification.
a) Mechanisation of the maintenance and renewal of the permanent way. b) Recent improvements relating to reinforced concrete and prestressed sleepers. Results obtained. c) Recovery and strengthening of metal bridges that have reached the theoretical limit of safety. ( <i>Question I, Enlarged Meeting of the Permanent Commission, Lisbon, 1949</i> ). Report ( <i>America, Great Britain, Dominions, Protectorates and Colonies, China, Egypt and India</i> ), by V. A. M. ROBERTSON . . . . .	727	625 .13, 625 .142 .4 & 625 .17
Electric locomotives for fast trains (75 m.p.h. and over). Discussion of adopted and projected types. 1) Arrangement of the axles. 2) Type of axle drive : a) motor suspended from the nose; b) flexible transmission. 3) Electric motor characteristics. 4) Braking. ( <i>Question II, Enlarged Meeting of the Permanent Commission, Lisbon, 1949</i> ). Report ( <i>English speaking countries</i> ), by G. A. DALTON . . . . .	799	621 .335
MONTHLY BIBLIOGRAPHY OF RAILWAYS . . . . .	85	*016 .385. (02
Analytical table of articles according to the decimal classification . . .	1 to 9	
Contents of the 25th year of the English edition. . . . .	1 to VII
